Maths	Must Do Activities	Can Do Activities	
	Division Problem Solving Division means to divide a total into equal groups. PROBLEM SOLVING – SHARING Grandma has cooked 48 yummy cakes for her grandchildren. She says that she could share them EQUALLY among her grandchildren even if she had 2, 3, 4, 5, 6, 7, 8, or 9 grandchildren. Is she right? Use counters (pebbles, buttons, beads, shells, cereal, nuts, beans) and show your working out. 6. Upload your answer on Seesaw for marking	NRich Maths Division Problem Birthday Sharing; https://nrich.maths.org/14052	
Other	Science	Hands on Learning Social and Emotional Learning Daily Fitness	
	Using what you've learnt about forces create a marble run out of recycled materials. See Seesaw for examples.	<p>At the end of this week's planned online learning you will see a slide with a variety of activities you and/or your child can do throughout the day.</p> <p>These activities are completely optional.</p> <p>Enjoy!!!</p> <p>Your child can upload a photo to their Seesaw journal of any of these activities if they would like to.</p>
